Gleaming Strand New Attraction at Ventura Fair

Only County Fair in United States Located on Seashore

Ventura, August 11.—Throwing upon to the public the vast expanse of white sand immediately back of the grand stand and bleachers on the Ventura County Fair Grounds, the annual Ventura county exposition will have the unique distinction of being the only county fair in the United States located on the sea-shore.

W. W. Van Pelt, manager of the fair, has announced that the dates for this year's event will be September 11-13 inclusive and for five days visitors to the fair may camp or picnic on the beach. In previous years the alluring stretch of sand has remained unused but this year it will be made a feature that is expected to draw immense crowds. The beach motif will climax in a bathing girls' review and aquatic sports on the closing day of the fair.

Mingling with the modern bathing girls will be realistic figures of the old west, when a wild west

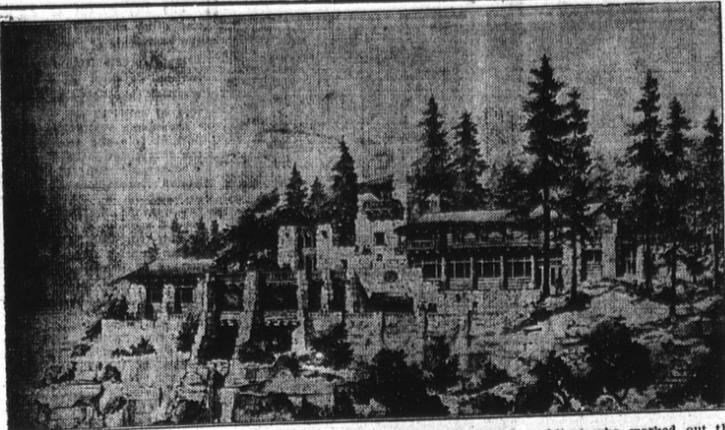

show and rodeo will be staged under the direction of Bob Anderson, her shipped in two ear loads of cattle from the ranges of Nevada and these will be pastured in the hills of Ventura county until fair time. All of the features of a rodeo will be included in the program, with prizes that will attract some of the champion riders of the big circuits. Some of the events will be calf riding for boys under 16 years of age; steer riding, bucking horse contests, bare-back riding, bull-dogging and calf roping. Chariot races, relay races and whipper races will also be on the card.

The three-phased exposition, featuring farm exhibits, frontier day sports and the charm of the seashore, is causing fair officials to plan for handling large crowds of visitors to "the county fair on the beach."

New Union Pacific Hotel on Grand Canyon Rim

Already world-famous for its scenic grandeur, the territory surrounding the North Rim of the Grand Canyon, served by the Union Pacific System, is to be made even more attractive to tourists by the immediate construction of a magnificent modern hotel and lodge of primitive design at Bright Angel Point, according to George R. Bierman, general passenger agent of the Union Pacific in Los Angeles.

In regular operation over their main lines to Cedar City, and by special bus through Cedar Breaks, Bryce Canyon, Zion National Park, Kalbar National Forest and Grand Canyon National Park to the North Rim, the Union Pacific will also operate this new hotel and lodge at Bright Angel Point.

The architect who worked out the unique design for the Union Pacific hotel, which, when completed, will appear to have grown right out of the multi-colored cliffs at the edge of the Grand Canyon, he says: "Taking advantage of the great stone pylons that point their grotesque rock fingers skyward, Underwood has planned to fashion the hotel from native rocks and logs, using these natural pillars as supports and letting the varying levels of the cliffs serve as floors for the different rooms."

Torrance Loses in Inter-League Play-off Series

The Torrance Merchants, champions of the Bay District Baseball League, was eliminated from the inter-league series Sunday with a 5 to 4 defeat administered by Pasadena of the Triple A League. It was a hot game from start to finish, the teams being very evenly matched.

Torrance had a flock of bad breaks which sent the victory spinning to Pasadena. Wolf, Torrance third baseman, who had played 22 consecutive games without an error, struck his jinx at three errors in a row.

Next Sunday Torrance will play at Monterey Park.
